

HUSKY 3 FOAM SYSTEM

Pierce

Meet the only foam system of its kind.

Any foam system can save your department money. It takes some serious ingenuity to deliver a value system as powerful as it is intelligent. It takes something built by Pierce.

The inspiration behind Husky 3: best-in-class everything.

Boasting many of the same unmatched standards of the Husky® 12 injection system, Husky 3 is the only entry-level foam system available with Class A and Class B capabilities.

It can take on structure fires, wildland fires, automobile and small class B spills. And its standard refillable tank eliminates the need for an additional pump – saving money, space and energy usage without sacrificing performance.

***Equip your next Pierce apparatus with Husky 3.
Get the best-performing, most versatile value
foam system in its class.***

- Entry Level: Single Tank Class A with refill as Standard
- Designed for Structure Fires, Wildland Fires, Automobile and Small Class B Spills
- Capable of Pumping Class A or Class B Foam
- 3 gpm of Foam Concentrate @ 150 PSI Rated Capacity
- Operating Pressures up to 400 PSI
- Injection Percentages from .1 - 3%
- Electronic Direct Injection Foam System
- Easy-To-Use Push-Button Control
 - Independently tested per SAE and Military specifications for off-highway heavy usage equipment
- DC Hydraulic Power Unit
- Auxiliary Foam Pick-Up
 - Allows use of other foam types
 - Foaming operations continue when foam tank is depleted
- Foam Tank Refill
 - The only system on the market to fill the foam tank from the ground as standard

HUSKY 3 CAPACITIES

Foam Concentrate %	0.20%	0.50%	1%	3%
Husky 3 Water Flow GPM (L/min)	1000	600	300	100
	(3785)*	(2271)	(1135)	(379)

* Maximum flow depends on maximum water pump and plumbing restrictions.
