

Our expert technicians will add a Hercules Compressed Air Foam System to take your existing foam system's capability to a whole new level.

Your Hercules Foam System installation includes:

- Rotary screw compressor rated from 70- 200 cfm
- Bronze water-check valve resists corrosion
- Compressor gauges and temperature warning alarm
- Water/oil cooler for compressor
- Stainless steel receiver tank
- Fully calibrated and set up for the foam system used in your department
- Tested and certified
- Limited 1-year parts and labor warranty
- Factory training (optional)

Talk to your Pierce representative about your refurbishment needs, from accident repairs to aerial remounts. Their experience can really make a difference.

**Refurbishment: HERCULES®
CAFS UPGRADE**

PERFORM. LIKE NO OTHER.™

Refurb. Hercules 2.5M

Increase your fire fighting effectiveness and range without replacing your pumper.

Pierce's Refurbishment Center can add a Hercules® Compressed Air Foam System to your existing rig.

The Hercules® Compressed Air Foam System drills firepower right to the source:

- **Up to four times more effective than water alone.**
- **30% increase in range keeps you farther from the fire.**
- **Lays down a long-lasting protective blanket that helps protect firefighters.**
- **Adheres better than conventional foams.**
- **50% lighter hose means less fatigue.**
- **Compressors range from 70-200 cfm.**
- **Reduces the amount of foam needed which means greater cost-effectiveness and less runoff.**
- **Suitable for all foam systems and applications - wildland and structural.**

And now you can pack the punch of a Hercules System without knocking out your budget.

Our Refurbishment Centers will also give your existing rig a thorough inspection and complete tune-up. And they can fix you up with a wide range of technologies – so you can work more safely and efficiently than ever before.

For example, you could get a TAK-4™ independent front suspension for improved ride, handling and braking. You may also want to take a look at a Husky® foam system delivers serious knockdown capacity without drawing serious amps.

And, to keep transport costs reasonable, you can use one of three Refurbishment Centers in Wisconsin, California and Florida.
